

Privacy Policy

We do not disclose any nonpublic personal information about our members and former members to anyone, except as required by law. As an example, we do report to the credit bureau for loans, and they require a SSN from all institutions to provide accurate reporting. We report your SSN to the IRS when we report 1099 dividend information because it is required. Under NO circumstances do report non-public confidential information to anyone if it is not required by federal law.

The People's Federal Credit Union collects nonpublic personal information about you from the following sources:

- * Information we receive from you on applications or other forms;
- * Information about your transactions with us and our affiliates; and
- * Information we receive from a consumer reporting agency.

We restrict access to your personal and account information to those employees who need to know that information to provide products or services to you. We maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard your nonpublic personal information.

In regard to AFFILIATES, the only information they receive is address information until *you* sign up for their service. In the case of insurance, they only get your loan number to properly apply the charge. But once again, if you do NOT sign up for this service, the affiliates get no information related to your account outside of the address.

Rest assured, The People's Federal Credit Union has always taken identity theft seriously.
