

CALL FOR PAPERS — SOUPS 2007

July 18-20, Pittsburgh, PA

The **2007 Symposium On Usable Privacy and Security** will bring together an interdisciplinary group of researchers and practitioners in human computer interaction, security, and privacy.

TECHNICAL PAPERS

We invite authors to submit original papers describing research or experience in all areas of usable privacy and security. Topics include, but are not limited to:

- innovative security or privacy functionality and design,
- new applications of existing models or technology,
- field studies of security or privacy technology,
- usability evaluations of security or privacy features or security testing of usability features, and
- lessons learned from deploying and using usable privacy and security features.

Papers need to describe the purpose and goals of the work completed to date, cite related work, show how the work effectively integrates usability and security or privacy, and clearly indicate the innovative aspects of the work or lessons learned as well as the contribution of the work to the field. Submitted papers must not substantially overlap papers that have been published or that are simultaneously submitted to a journal or a conference with proceedings. Accepted papers will appear in the ACM Digital Library as part of the ACM International Conference Proceedings Series. The technical papers committee will select an accepted paper to receive the SOUPS 2006 best paper award.

Papers may be up to 12 pages in length including bibliography, appendices, and figures, using the ACM SIG proceedings template. All submissions must be in PDF format.

Submit your paper using the electronic submissions page for the SOUPS 2007 conference. **Technical paper submissions will close at midnight, US East Coast time, the evening of Friday, March 2.** Authors will be notified of technical paper acceptance by April 20, and camera ready final versions of technical papers are due May 25.

OTHER SUBMISSIONS

See the SOUPS web site for information on submitting posters, discussion sessions, panel proposals, and tutorial and workshop proposals.

General Chair:

- Lorrie Cranor, Carnegie Mellon University

Interactive & Indepth Sessions Co-Chairs:

- Andrew Patrick, National Research Council Canada
- Paul Syverson, Naval Research Laboratory

Posters Co-Chairs:

- Jose' Carlos Brustoloni, University of Pittsburgh
- Jaime Montemayor, The Johns Hopkins University Applied Physics Laboratory

Technical Papers Co-chairs:

- Jason Hong, Carnegie Mellon University
- Diana Smetters, PARC

Technical Papers Committee:

- Lujo Bauer, Carnegie Mellon University
- Konstantin Beznosov, University of British Columbia
- Bill Cheswick, Cheswick.com
- Elizabeth Churchill, Yahoo! Research
- Keith Edwards, Georgia Tech
- Carl Ellison, Microsoft
- Simson Garfinkel, Naval Postgraduate School
- Peter Gutmann, University of Auckland
- Markus Jakobsson, Indiana University
- Clare-Marie Karat, IBM TJ Watson Research
- Rob Miller, MIT
- Paul van Oorschot, Carleton University
- Andrew Patrick, National Research Council Canada
- David Redmiles, University of California, Irvine
- Ian Smith, Intel Research
- Hao-Chi Wong, PARC
- Ka-Ping Yee, University of California, Berkeley
- Mary Ellen Zurko, IBM Software Group
